

Guidelines for

.TH Third-Level Domain Name Registration

1. Domain Name Management System

The Registrar will provide registration service for .th domain name through Domain Name Management System which a user must apply membership and create a user account in order to log in to the system and submit a domain name registration request. In addition, there are other services available in this system allowing the members to manage their registered domain name conveniently such as domain name renewal, change of information of registered domain, etc.

1.1. User Account

- A user must subscribe a member of the system and fill up personal information such as first-name, last-name, address, phone number, and email as contact information to the Registrar.
- Email and password specified in member subscription will be use to create a user account for log in to the system.
- A user account with no accessibility longer than 2 years and no registered domain name under administration will be automatically removed from the system.

1.2. Conditions of Domain Name Registration Request

- Domain name registration request has life cycle 30 days. During this life cycle, other users cannot submit the request in the same name.
- A user account of domain name management system, involving another user account that is suspected of being the same person or obviously related, is allowed to submit a request of domain name registration in the same name at most 2 times within 60 days. The Registrar reserves all rights to terminate the request with no prior notice.

1.3. Responsibility of Domain Name Management System Members

Members of Domain Name Management System will receive privilege to manage registered domain name(s) under their administration. Therefore, members will be responsible to any changes, corrections, or additional information. The Registrar will not responsible to any loss occurred from inaccurate data record resulted in any interruptions of domain name usage, or resulted in disconnection between the Registrar and the

domain name holder, or the agent. Thus, a member must be responsible and careful in recording correct data and provide valid contact information so that the Registrar can contact at any time.

2. Domain Name Registration Procedures

2.1. Member Subscription

A user must subscribe member of the Domain Name Management System as described in cause 1.1 in order to submit a domain name registration request and manage registered domain name(s) under your administration.

2.2. Search and Chose Available Domain Name

Domain naming must be in accordance with criteria of domain naming specified in [.th and .ไทย Domain Name Registration Policy](#), search for available domain name at the [Registrar website](#). In the event of unavailable name or reserved name, please consider another name that is still in accordance with criteria of .th and .ไทย domain naming.

2.3. Submission of Domain Name Registration Request and Attachment(s)

A user must submit a domain name registration request together with necessary attachment(s) as described in a preferred category. (See details of attachments in Appendix A)

2.4. Domain Name Verification and Result Notification

The Registrar will verify domain name registration request together with attachment(s), and will respond back to the user within one day. Typically, an approved domain name registration request will not be registered until the user has completed payment for registration fee and notify proof of payment to the Registrar.

2.5. Payment of Domain Name Registration Fee

A user must proceed to pay for domain name registration fee after a request of domain name registration has been approved, and must provide the Registrar with proof of payment.

- Fee schedule and payment channels are displayed on the [Registrar website](#)
- Submit proof of fee payment, and specify domain name to email staff@thnic.co.th or facsimile number 02-564-8033

2.6. Domain Name Registration

Upon completing verification of fee payment, the Registrar will proceed to register a domain name and reply completion result to the user by email.

- 2.6.1. **Name Server (NS):** a registered domain name can be used when at least two configured NS are provided to installing domain name information. The user must enter NS information in the Domain Name Management System as well.

2.6.2. **WHOIS:** the Registrar will store information of all registered domain names in WHOIS database

3. Domain Name Renewal Procedures

3.1. Verification of Domain Name Expiry Date

Users must be responsible to verify expiry date of a domain name, even though the Registrar has provided advance reminder 60 days prior to the expiry date.

3.2. Submission of Domain Name Renewal

Users must submit a domain name renewal request in the system which shall be done prior to the expiry date to prevent suspension of domain name.

3.3. Payment of Domain Name Renewal

Users must proceed to pay annual renewal fee and provide proof of payment to the Registrar.

- Fee schedule and payment channels are displayed on [Registrar website](#).
- Submit proof of fee payment, and specify domain name to email staff@thnic.co.th or facsimile number 02-564-8033.

3.4. Domain Name Renewal

Upon completing verification of fee payment, the Registrar will proceed to renew a domain name and notify completion result to the user by email.

3.5. Expired Domain Name

In case a domain name holder do not wish to renew a domain name, or the event neither the Registrar did not receive annual renewal fee, nor did not receive proof of payment from the user, the Registrar will proceed the following procedures:

3.5.1. Once a domain name expired one month, the Registrar will temporary disable the domain name. The domain name holder will have rights over this domain name for one more month.

3.5.2. Once a domain name expired two months, the system will automatically delete the domain name. The domain name holder will lose rights over this domain name immediately. (In case of wishing to use this domain name again, a new registration request is required).

4. Change of Domain Name Information

Domain name information can be changed or revised as follows:

4.1. Change of General Information

Users can proceed to change or revise general information in the system and recorded by themself.

4.2. Change of Domain Name Holder

Change of domain name holder is considered important information change which can be revised by the Registrar only.

In case name of domain name holder has been officially changed, submit a formal letter to the Registrar requesting for change of domain name holder, specify domain name, signed by domain name holder, attach supporting documents as evidence such as certificate of first name (or last name) change registration or a formal certificate that stated name changed.

4.3. Change of User Account

Change of user account is considered important information that users must submit a formal letter to the Registrar requesting to change user account, signed by domain name holder or authorized agent. The letter must contain following details:

- Current user account (current email)
- New user account (new email)
- Domain names (list of domain names to be transferring to a new user account).

Remarks

- If a new user account is an authorized reseller, the user must arrange to pay at least a one-year annual renewal fee per domain name to the new user account.
- If a current user account is an authorized reseller, the user must arrange to pay at least a one-year annual renewal fee to the current user account.
- The Registrar will email a notification of user account change to the current user account, then proceed to change a new user account after two hours unless receiving an objection from the current user account.
- The Registrar will base on a formal letter from the domain holder or the agent. In the event that a current user account requested to hold domain name transferring to a new user account, the Registrar will extend the process to 24 hours after sending out the first email notification, and then will perform domain transfer to a new user account upon due time.
- The registrar offers services to change user account daily during 08.00-22.00 hours only.

5. Domain Name Deletion Request

Domain name deletion will be performed by the Registrar only. A user can submit a domain name deletion request in the system, attach with supporting document(s) as evidence to the Registrar such as a formal letter to the Registrar requesting to delete domain name(s). This letter must specify domain name(s), seal (if applicable) and signed by the domain name holder or the agent.

In the event that a user cannot log in to the system to submit domain name deletion request, the user can add a request in the same letter requesting to change a new user account, specify email address for new user account creation.

6. Domain Name Transfer

Transfer of domain name ownership to a new holder cannot be performed on a regular basis unless fall under specific cases, which user must submit a formal letter to the Registrar requesting to transfer domain name ownership, explicitly specify the domain name and name of transferee. ,

signed by the domain name holder/agent, seal (if applicable), and attach supporting document(s) as evidence as per following specific cases:
